

«Goals for Hope» comes to Menorca Doc Fest: an exhibition and an educational project to change the way we see migration

- From 9 to 18 October, Ca n'Àngel hosts the participatory photography exhibition by Ofelia de Pablo and Javier Zurita, along with educational photography workshops

From 9 to 18 October, the Centre d'Art i Cultura Ca n'Àngel (es Mercadal) hosts «[Goals for Hope](#)» by Ofelia de Pablo and Javier Zurita, a social impact project that combines participatory photography, football and education to transform the narrative around migration, fight hate speech, and turn young migrants into protagonists and agents of change.

Ofelia de Pablo and **Javier Zurita** are documentary makers, photographers and investigative journalists. Co-founders of Hakawatifilm, they create visual narratives that combine journalism, photography, documentary and education to generate social and environmental impact in human rights, gender and conservation.

On **Saturday 10 October at 11:00**, Ofelia de Pablo and Javier Zurita will present the project, and the results of the participatory photography workshops held in Menorca by the Menorca Doc Fest's **Aula Doc** team will also be on view.

«Goals for Hope», a project by **Hakawatifilm**. Funded by the **Ministry of Culture**, and with the support of **Canon España**. More information: www.goalsforhope.org

An exhibition designed for the classroom

«Goals for Hope» goes beyond the exhibition hall. The project includes an **educational resource** for secondary school teachers, designed by the MiRu Association (Mirada Rumiante) for Hakawatifilm, which allows what happens in the participatory workshops to continue in the classroom. The exhibition's images are used as a starting point for learning to think critically and to question stereotypes about migrants. The resource is structured in three modules, which can be used independently or in sequence. The journey moves from emotion to understanding and on to transformation, and connects with areas such as Civic and Ethical Values, Social Sciences, Visual Arts, and Language, as well as with several Sustainable Development Goals.

As part of the [8th Menorca Doc Fest](#), **Aula Doc** offers photography workshops with professional cameras for secondary and sixth-form students from schools across the island, based on this resource and led by **Paula Jaume Sanchez**. The sessions are divided as follows: **Friday 25 September**, 9:00–11:00, with 6th-grade students from the Mare de Déu

del Toro public school (es Mercadal); **Saturday 26 September**, 19:00–21:00, with the es Mercadal Youth Centre; and **Monday 5 October**, 9:00–11:00, with another group of 6th-grade students from the Mare de Déu del Toro public school.

Paula Jaume Sanchez is an analogue photographer and visual artist. With a degree in Audiovisual Communication, she explores the relationship between people and nature, creating images that invite viewers to feel and reflect. Her projects speak of identity and of symbiosis with the world and the nature around us. She has exhibited her photographic work from Menorca to Italy, Germany and the Iberian Peninsula.

Menorca Doc Fest is an initiative of FAR Cultural, sponsored by the Fundació Foment del Turisme de Menorca (FFTM), the Institut d'Estudis Baleàrics and the Consell Insular de Menorca.
